	Policy	<input type="checkbox"/>
	ICT	<input type="checkbox"/>

ALCOHOL AND DRUG PARTNERSHIP STRATEGY RECOVERY IS REALITY 2023 - 2026

1. PURPOSE OF REPORT

- 1.1 The purpose of the report is to ask members of the Integration Joint Board to consider and approve the refreshed ADP Strategy: Recovery is Reality 2023 – 2026 and to note the activities underway to develop the new ADP Commissioning Plan and Performance Framework.

2. RECOMMENDATION

- 2.1 It is recommended that the Integration Joint Board approves the refreshed ADP Strategy – Recovery is Reality 2023 – 2026.**

3. BACKGROUND INFORMATION

- 3.1 The existing ADP Strategy, Recovery is Reality 2020 – 2024 was developed following extensive consultation with individuals, family members, the local community, and staff.
- 3.2 Over the last two years the ADP has undertaken a Learning Review and a range of related research and scoping studies included extensive consultation with individuals with lived and living experience, practitioners, and managers which have informed the development of the new ADP Change Story.
- 3.3 Following the completion of the ADP Learning Review activities and approval of the approval and launch of the new ADP Change Story in November 2022, members of the ADP agreed to review and refresh the existing ADP Strategy, Recovery is Reality, to embed the new Change Story and emerging national strategies and drivers.

4. REPORT

- 4.1 The refreshed ADP strategy, Recovery is Reality 2023 – 2026, is South Ayrshire’s alcohol and drug strategy, which is set in the context of the wider strategic outcomes of the Health and Social Care Partnership and Community Planning Partnership.
- 4.2 The strategy sets out an ambitious story of change for the coming three years detailing what the ADP wants to achieve and how it is going to achieve the changes including setting out a range of system-wide strategic priorities, outcomes, all linking to national priorities:
- Fewer people develop problem alcohol and drug use.
 - People receive and benefit from high-quality, person-centred services and supports which address multiple disadvantages and reduce risk.

- Vulnerable people are diverted from the justice system wherever possible and those within justice settings are fully supported.
 - Children, families, and communities affected by substance use are included and supported.
 - Good governance centres on public trust, and the effective delivery of services by the ADP. By prioritising transparency, accountability, public participation, the ADP models good governance.
- 4.3 The need for a new ADP Commissioning Plan and Performance Framework were two recommendations from the ADP Learning Review.
- 4.4 The Commissioning Plan will support the delivery of the new ADP Change Story and Recovery is Reality Strategy 2023 – 2026. The plan will identify the total resources available to the partnership, set out values and desired outcomes identified through the Learning Review activities and link investment to these values and outcomes, and employ a coherent approach to prioritising different areas for investment or disinvestment. The Commissioning Plan will be a key mechanism for turning the ADP ambitions and principles into reality, through the commissioning of creative, compassionate, and collaborative services.
- 4.5 The new ADP Performance Framework will underpin the Strategy and Commissioning Plan and show the clear links between strategic outcomes and service level outcomes for ADP commissioned services. The electronic performance management system will help the ADP collect data easily, provide dashboards, provide analysis, run reports, and offer service improvement data / ideas to individual services.
- 4.6 The ADP has agreed a three-phase process for development the new Commissioning Plan and Performance Framework and this work will be completed by March 2024.

5 STRATEGIC CONTEXT

- 5.1 The refreshed ADP Strategy, Recovery is Reality 2023 – 2026, is in line with the priorities identified during the ADP Learning Review and related activities and the ADP Change Story, as well as the National Drug Mission Priority and Whole Family Approach Frameworks. The refreshed ADP Strategy is also in line with the strategic priorities in the Health & Social Care Partnership Strategic Plan, with respect to collaboration and building of caring communities through a whole system approach.

6 IMPLICATIONS

6.1 Financial Implications

- 6.1.1 There are no immediate financial resource implications arising from the content of this report.

6.2 Human Resource Implications

6.1.2 There are no human resource implications arising from the content of the report.

6.3 Legal Implications

6.3.1 There are no legal implications arising from the content of this report.

7 CONSULTATION AND PARTNERSHIP WORKING

7.1 The ADP Learning Review, research and scoping activities, and development of the new ADP Change Story and Recovery is Reality Strategy 2023 – 2026, were undertaken with a wide range of partners including individuals with lived and living experience, frontline practitioners, and managers.

8. RISK ASSESSMENT

8.1 There are no immediate risk implications arising from the content of the report.

9. EQUALITIES IMPLICATIONS

9.1 There are no equality implications arising from the content of this report.

10. SUSTAINABILITY IMPLICATIONS

10.1 There are no sustainability implications arising from the content of this report.
