

Health Visiting Speech and Communication Project

Background

Since 2020 there has been a sharp increase in the number of children at 27-30 months with speech and communication concerns

Project Aim

Improve development outcomes and readiness for education

Project Pathway

- Identify infants that need additional input at 8 and 13-15 month check
- Provide targeted support from Health Visiting Support workers
- Utilise a range of resources and interventions
- Health Visitor review following intervention
- Review data
