4. Directions to both SAC & NHS <input type="checkbox"/>	Equalities <input type="checkbox"/>
	Sustainability <input type="checkbox"/>
	Policy <input type="checkbox"/>
	ICT <input type="checkbox"/>

## LOCALITY PLANS

### 1. PURPOSE OF REPORT

- 1.1 The purpose of this report is to provide an update to the Strategic Planning Advisory Group (SPAG) on the progress made within the Health and Social Care Partnership (HSCP) on development of locality working in relation to Adult and Older People's Services, and the emergence of Locality plans to support this.

### 2. RECOMMENDATION

- 2.1 It is recommended that the SPAG note the content of this report and support the proposed Governance route moving forward.**

### 3. BACKGROUND INFORMATION

- 3.1 Locality planning is a key vehicle for ensuring that the voice of local communities' shape wellbeing, service, and support across South Ayrshire.
- 3.2 This should be done in line with population data, national and local policy context, and professional advice.
- 3.3 Locality Planning is a requirement of the Joint Bodies Act which underpins integration of health and social care.
- 3.4 Moving forward Locality plans will articulate locality planning, priorities and key actions.
- 3.5 Girvan/South Carrick, and Maybole/North Carrick Locality Planning Partnerships (LPP) remain active and meet on a monthly basis. Progress within the LPPs is reflected within the LPP chair report. It is envisaged that the LPPs will have a real focus on the actions within their respective locality plans, with the emphasis on a co-produced and holistic approach to delivering good outcomes for citizens and communities.
- 3.6 Ayr North and Ayr South Locality Planning Partnerships (LPP) have been active for a number of years and enjoyed support from community members and professional colleagues. Since the review of Localities, which was finalised in the summer of 2023, there has not been the same level of support to the LPP. A host of engagement opportunities have been undertaken, with valuable feedback from our community members regarding how they would like to see health and social care services delivered in their local area.
- 3.7 Despite this, there has been very little interest from the local community to participate in the LPPs. This has limited the amount of support to the development of both Ayr Locality Plans. By adopting 1 year bridging locality plans, which reflect the key priority areas for each locality, an ambition of the LPPs will be to encourage our community members to join the group,

alongside the professional staff we hope will become part of the Partnership in line with the newly agreed Terms of Reference. The plans represent a clear evidence base, aligned to population data, national and local drivers, professional advice and lived experience, and articulate the aspirations of the Ayr North and South Localities.

- 3.8 Prestwick and Villages Locality Planning Partnership is a well-established, and well attended LPP with a good mix of community members and professional colleagues. This LPP has had a commitment to consider local priorities and awarded grant funding to support community groups with a focus on social isolation. With the focussed approach to locality modelling, this LPP is keen to be involved in engagement across the locality to inform their priorities going forward.
- 3.9 The North Locality Partnership Engagement Officer is currently progressing engagement work within the Troon and Villages Locality with a focus on promoting and encouraging attendance to support a Troon and Villages LPP. Give there has been limited support to developing the Troon and Villages LPP, the priorities have not been set and therefore the development and contribution to a Locality Plan has been delayed. However, this is a focus moving forward.

#### 4. REPORT

- 4.1 In order to develop locality plans and actions there has been ongoing engagement and communication with key stakeholders.
- 4.2 Key to the delivery of locality plans is the Locality Planning Partnerships (LPP).
- 4.3 LPP have clear terms of reference to ensure the communities voice is heard, and that all stakeholders are working together to plan for, resource and provide services, support and care in the local area, with a focus on tackling inequalities.
- 4.4 Through whole system partnership working, co-production and co-design locality plans will articulate actions relevant to locality priorities with a clear, authentic and transformational approach aligned to quality planning, improvement and assurance.
- 4.5 The ambition of the HSCP to work effectively and efficiently with communities to develop and deliver local services, is reflected within the Locality Plans. The structure has been endorsed by the Integrated Joint Board and the Community Planning Partnership (CPP). This reflects a move to adopt a broader partnership approach to health and social care, integrating the wider services and organisations who ultimately provide support to our local communities.
- 4.6 The Senior Managers within the HSCP who have responsibility for the development and implementation of the actions within the Locality Plans, are

working closely with colleagues within South Ayrshire Council's CPP team to ensure both HSCP and CPP structures are appraised of the progress of the Locality Plans.

- 4.7 Attached to this paper are draft Locality Plans. It is envisaged that the Plans will be presented at the Integrated Joint Board in September 2024 for formal approval.
- 4.8 Once Plans are approved, an annual update will be delivered to SPAG.
- 4.9 The Plans and updates will be presented to the CPP Board within same timescales.
- 4.10 To highlight progress of the Plans and the actions within there will be a measurement plan. Appendix 1 provides an example of a measurement plan for Girvan/South Carrick
- 4.11 The Locality Planning Partnerships will also consider their contribution to the delivery of the Plans on a month-to-month basis.
- 4.12 Updates by exception will be shared with both the SPAG and CPP.

## **5. STRATEGIC CONTEXT**

- 5.1 Locality planning and plans incorporate the strategic objectives of the South Ayrshire Health and Social Care Partnership (SAHSCP).
- 5.2 Crucial to Locality planning and plans are a commitment to co-production and co-design as reflected within the South Ayrshire Wellbeing Pledge.
- 5.3 By adopting a truly whole system and whole family approach beyond the services directly delivered by the SAHSCP the locality plan will ensure priorities and actions identified are intrinsically linked to Local outcome improvement plans priorities.

## **6. IMPLICATIONS**

### **6.1 Financial Implications**

- 6.1.1 Delivery of health and care remains within set budgets for service delivery.
- 6.1.2 To promote community empowerment there will be participatory budgeting opportunities for locality citizens and groups to access.
- 6.1.3 The expectation will be that participatory budgeting will be linked clearly to the locality priorities and there will be regular communication and networking events to raise awareness of local groups/initiatives and how these can be accessed.

## **6.2 Human Resource Implications**

- 6.2.1 Workforce planning and development is a key pillar for delivery of the locality plans.
- 6.2.2 It is imperative that HSCP has a workforce that is informed and engaged, skilled and digitally confident, valued, ambitious and proud, and collaborative.

## **6.3 Legal Implications**

- 6.3.1 The locality plans align with a human rights and the PANEL approach.

## **6.4 Equalities implications**

N/A

## **6.5 Sustainability implications**

- 6.5.1 Within the locality plans there is a real focus on prevention, early intervention and supported self-management.
- 6.5.2 The locality plans align with the SAHSCP vision of empowering citizens and communities to start well, live well and age well.

## **6.6 Clinical/professional assessment**

- 6.6.1 Effective implementation of locality plans will be in line with professional standards and best practice.
- 6.6.2 Key to delivery of locality plans will be clear development plans and supervision arrangements for SAHSCP locality staff, aligned to professional registration requirements.

## **7. CONSULTATION AND PARTNERSHIP WORKING**

- 7.1 The locality plans provide detail of communication and engagement that has taken place.
- 7.2 The locality plans acknowledge the importance of partnership working across a whole system.

## **8. RISK ASSESSMENT**

- 8.1 Clear governance and reporting arrangements with regards to locality planning, health and care and community planning will enable recognition of progress to date and ensure a focus on learning and continuous improvements.
